Summary

Master's student in Intelligent Systems, specializing in Artificial Intelligence and Web Development. Strong skills in Machine Learning, Deep Learning, web application design, and intelligent systems engineering.

Work Experience

Conference Paper Participation - "A Probabilistic Approach to Fraud Prediction.." April 2025

- Development and evaluation of a Bayesian Neural Network model for fraud prediction.
- Writing and submission of the paper to the *I2ASD* conference, held at ENS Meknès.

Desktop Application Developer, ENS Tétouan – HR Management (2 months) May – July 2024

- Design and development of an HR desktop application in Java/JavaFX (MVC architecture).
- Management of personnel, leaves, and mission orders.
- Automatic generation of certificates (work, leave the territory).
- Integration of a MySQL database and use of Git for version control.
- Application deployment via an executable JAR file.

Full Stack Developer, Fronton Center – Stock Management Application (2 months) Apr – May 2023

- Development of a web application for stock management for a drugstore.
- Use of the Laravel framework with a MySQL database.
- Collaboration within a team for application setup and testing.

Education

Master's in Intelligent Systems for Education, ENS Meknès 2024 – 2026

- Specialization in intelligent systems, with projects in AI, ML, DL, NLP, and connected systems.

Professional Bachelor's in Software and Web Development, ENS Tétouan 2023 – 2024

- Practical projects in web development and database management (MySQL), teamwork, and Git versioning.

Specialized Technician Diploma in Web Development, ISTA Khemisset 2021 – 2023

- Diploma obtained with honors, skills in web programming and database design.

Technical Skills

Programming Languages: Python, Java, JavaScript, PHP, HTML, CSS, SQL.

Frameworks & Libraries: TensorFlow, PyTorch, Scikit-learn, Streamlit, ReactJs, ExpressJs, Laravel, JavaFX, JEE, Django.

Databases: MySQL, MongoDB, Firebase.

Tools & Environments: Google Colab, Kaggle, Git/GitHub, Docker, VS Code, Eclipse, Postman, VirtualBox, StarUML.

Skills

Languages:

- Arabic: Bilingual | English: Fluent | French: Fluent

Certifications:

- Certified Python Programming (Cisco) | Certified JavaScript Programming (Cisco) | Introduction to the IoT (Cisco)
- Microsoft Office Specialist – Word & Excel 2016 | Git Essentials for Developers (Udemy)

Soft Skills:

- Problem-solving, teamwork, communication, time management, creativity

Interests:

- AI, Web, IoT, team sports, travel, innovative technologies, hiking.
